Extracurricular
Extracurricular made easy

Activities
A solution for schools to manage extracurricular activities.

Activities2go will be available early 2022

Our Vision

- Empowering schools to use digital processes in managing enrolment, excursions and extracurricular.
- Providing a tailored solution for the education sector with a clear focus on supporting staff and educators.
- Ensuring schools are better positioned to use information to care for students than ever before.

Collect Information

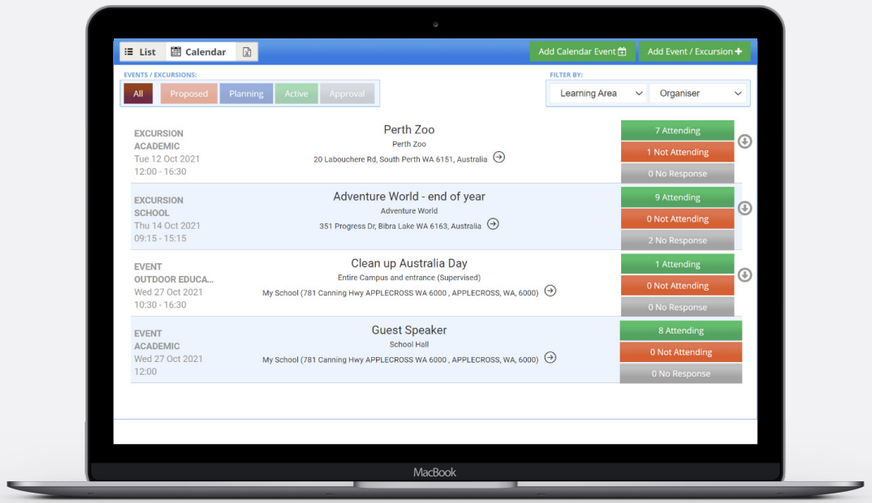
Parents can update this information via mobile phone or web

- Student medical
- ACARA details
- Vaccination details
- Photo permissions
- Parent contact information
- ASADA
- Medication management

2Go for Schools integrates with many school admin and learning systems. This integration ensures that the information collected from the parents is automatically written back into your school system. If integration is not possible, a hybrid system is available for schools to manage their information

Consent2Go

- Digital solution for planning and managing events
- Integrated workflow to enable the standardisation of the creation, planning, implementation of any event or excursion.
- Easily remove inefficient paper processes from your school.
- Consolidated view of all school excursions through a digital calendar.
- Simple and structured process for staff.



Compli2Go

- Comprehensive easy-to-use compliance framework.
- Provides a consistent process to achieve best practice.
- Practical guidelines and risk assessment algorithm for conducting activities.
- Staff will save time and effort, and easily understand and interpret risks.
- Protects school, staff and students.
