What is Consent?

Consent from school leadership that the event can proceed.

2Go consent

Consent from the parent and the most up-to-date information.

Schools should feel confident that any digital consent process is easy for both staff and parents alike.

Parents are responsible for providing the school with the most up to date contact and care information.

Manage Consent Like Never Before

Real time structured medical

Ensure accurate information drives decision making

Parent Notifications

Keep parents informed, receive accurate information

Mobile App Integration

Manage events and excursions on the go

Streamlined Workflow

Workflow allows staff to organise events and excursions easily and receive consent from parents.

Full Security for System Use

Market leading data security and privacy

What is Consent2Go?
Powered by CareBook2Go

School Processes & Efficiency

Schools typically use large amounts of paper in their event and excursion planning, communication with families, and for the management of excursions.

The use of paper is a cumbersome process and is known to be the second largest expense to schools after staff.

The Office of the Australian Information Commissioner regards paper processes as nearly impossible to comply with privacy best practice.

Paper processes take a large amount of space in complying with record keeping.

Consent2Go

Consent2Go provides schools with a digital solution to remove the paper process and improve efficiency of staff processes.

Using Consent2Go, parents can provide timely information updates, and approval for events and activities.

Consent2Go understands creating a digital record does not automatically provide adequate privacy. Our solution is the market leading product, ensuring the best privacy possible for schools today.

Benefits of Consent2Go

School Problems		Consent2Go Solutions
	2Go consent	
Inefficient paper process for excursions and consent		Easy to use, repeatable digital workflow
Inefficient approval process		Comprehensive approval process
Inaccurate contact and care information		Integrated accurate data
Complex payment process for excursions		Secure digital processing of excursion payments
Chasing up parent consent forms		Digital consent process ensures timely parent response.

Proposal

Proposal

Easy one page proposal.

Notifications for transport requirements and relief staff, accessible to relevant staff members.

Approval

Structured approval process.

Different approval streams for various activity types and campuses.

Calendar

Colour coded calendar, indicating incursions, excursions, and restricted periods for exams and special events etc.

Calendar can sync with other school calendars as required.

Excursion Management

Prepare Excursion

Attachments

Easily add attachments to excursion or parent invites.

People

Easily add any combination of student groups (year group, class, etc.).

Options

Multiple options for variable scenarios (uniform type, reminders, payments, etc.).

Invites

Send and manage invites from a single screen, detailing whether parents have viewed, opened, or accepted the excursion.

Staff can send reminders to all invitees.

Alerts

When students with medical, swimming, or catering alerts are added to the system, notifications are sent to organising staff.

Students with the following conditions are available on the excursion management screen, to ensure all staff are aware of student alerts.
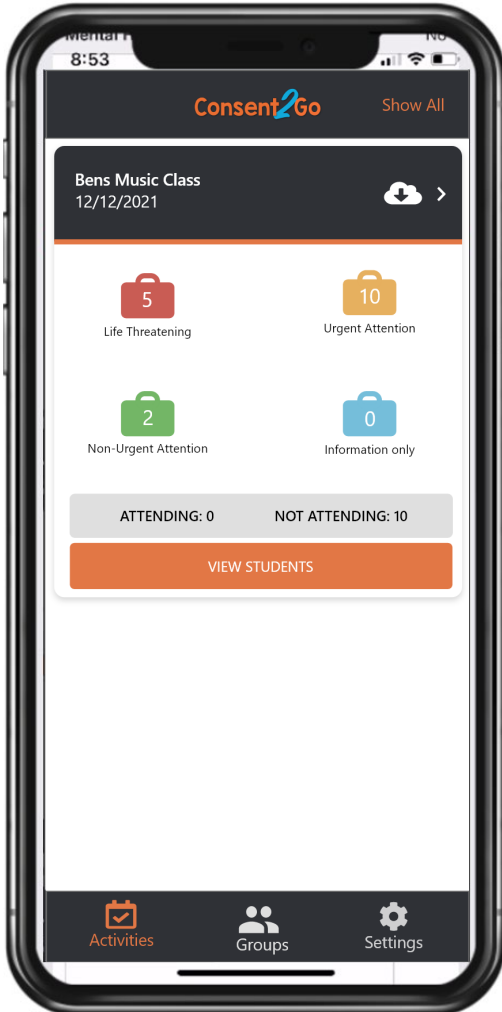

**Medical**   **Swimming**   **Catering**
